There are no specialist clinics in rural areas so we see a wide range of clinical presentations and people. It is a great opportunity to expand your skills and experience in a supportive environment.

If you are passionate about developing your physiotherapy skills in a particular specialised area of practice, then we can help with that too, as our caseload is incredibly diverse.

Living in the country can be quieter and more relaxing, but it's definitely not boring! Experience camping, bonfires, farm work, local wineries, local sport, and hiking (ask us about our Limestone Coast Challenge!)
